

---

Simple collaborative lessons for Google & Microsoft Schools.

---

## Before Class

Send students self-paced lessons to review before class.

Analytic features allow you to see which students have reviewed your self-paced lesson, how long for & in what order.

## During Class

Control when documents & content are shared with students in real time.

Leverage classroom management tools such as “Eye’s Up” & “Who’s Away”.

Instant formative assessment.

Simple whiteboarding & annotation tools allow you to explain concepts further. Save annotations to the slide for students to review at anytime.

## After Class

Post the lesson into Google Classroom or Microsoft Teams.

Students can view the lesson in their dashboard after class at any time. Students can view any annotations saved to the lesson.

## Get In Touch

We offer free online training & demos, Monday - Thursday 9am - 5pm.
