MimioFrame 72W touch board kit

The MimioFrame touch board kit turns your conventional whiteboard into a touch board in under five minutes using your existing classroom whiteboard, projector, and computer.

Create a touch board with ease using your conventional whiteboard. The MimioFrame touch board kit allows the teacher and multiple students to work together with **10-point Touch 360° interactivity.** Students write and manipulate objects above, below, or parallel to one another with a smooth and consistent response—making collaborative learning at the front of the classroom a reality.

- **Engage multiple users** in collaborative lessons or activities with 10 simultaneous touch points.

- The frame installs directly onto your dry erase board using industrial strength tape—**no drilling, no mess, and no losing valuable whiteboard space.**

- **Includes the dynamic MimioStudio™ classroom software** and the MimioMobile™ app, which together enable collaboration and assessment at the front of the room or on almost any device. Comes with three free MimioMobile connections.

- The lightweight kit design allows for **easy installation and 75% less shipping costs** than a standard touch board.

BOXLIGHT®

mimio®

MimioStudio software–so easy to use and engaging, your teachers will use it every day.
The MimioFrame touch board kit includes the dynamic MimioStudio classroom software. It connects the Boxlight Mimio products, so using other tools—from the document camera to the pen tablet—is quick and easy. MimioStudio software allows educators to create interactive lessons and collaborative activities, as well as perform real-time formative assessment. The software also opens other IWB activities, enabling educators to use the interactive content they already have. **Take learning even further with our MimioMobile app, which brings group learning and collaboration to almost any device.**
